CONTENTS OF VOLUME 119

Vol. 119B, No. 1

Reviews

J.-M. Kornprobst, C. Sallenave and G. Barnathan 1 Sulfated compounds from marine organisms

T. Seki and K. Vogt 53 Evolutionart aspects of the diversity of visual pigment chromophores in the class insecta

T. Yoshikawa and T. Oishi 65 Extraretinal photoreception and circadian systems in nonmammalian vertebrates

General Papers

V. I. Svetashev and M. V. Vysotskii 73 Fatty acids of *Heliopora coerulea* and chemotaxonomic significance of tetracosapolyenoic acids in coelenterates

O. S. Klyachko and N. D. Ozernyuk 77 Functional and structural properties of lactate dehydrogenase from embryos of different fishes

J. Knauer, R. G. Kerr, D. Lindley and P. C. Southgate 81 Sterol metabolism of Pacific osyter (*Crassostrea gigas*) spat

M. E. Roque, S. J. Pasquaré, P. I. Castagnet and N. M. Giusto 85 Can phosphorylation and dephosphorylation of rod outer segment membranes affect phosphatidate phosphohydrolase and diacylglycerol lipase activities?

Y. Kera, S. Hasegawa, T. Watanabe, H. Segawa and R.-h. Yamada 95 D-Asparate oxidase and free acidic D-amino acids in fish tissues

O. Pérez Borla, C. B. Martone and J. J. Sánchez 101 Protease I inhibitor system in fish muscle: a comparative study

Y. Miura and S.-i. Oda 107 Oxidation of fatty acids by kidney microsomes of musk shrew (*Suncus murinus*)

E. Gomes-Quintana, M. L. Barriviera and A. Hassón-Voloch 113 Lipid composition of normal and denervated electrocyte membranes: quantitative thin-layer and gas-liquid chromatography analysis

S. M. Munekiyo and S. P. Mackessy 119 Effects of temperature and storage conditions on the electrophoretic, toxic and enzymatic stability of venom components

R. M. G. Wells, P. E. McShane, N. Ling, R. J. Wong, T. O. C. Lee and J. Baldwin 129 Effect of wave action on muscle composition, metabolites and growth indices in the New Zeland abalone, Paua (*Haliotis iris*), with implications for harvesting and aquaculture

E. Pfeiler 137 Acidic glycosaminoglycans in marine teleost larvae: Evidence for a relationship between composition and negative charge density in Elopomorph leptocephali

C. Buesa, L. del Valle, N. Saperas, M. Goethals, D. Lloris and M. Chiva 145 Primary structure of scombrine α: two different species with an identical protamine

J.-Y. Yeh, B.-R. Ou, Q.-P. Gu and P. D. Whanger 151 Influence of gender on selenoprotein W, gluathione peroxidase and selenium in tissues of rats

I. Kim, G. Young Koh and C. O. Lee 157 Identification of alternatively spliced Na^+-Ca^{2+} exchanger isoforms expressed in the heart

D. O. Ogoyi, E. O. Osir and N. K. Olembo 163 Fat body triacylglycerol lipase in solitary and gregarious phases of *Schistocerca gregaria* (forskal) (orthoptera: acrididae)

A. M. Kazennov, M. N. Maslova, Y. A. Matskevich, F. A. Rustamov and A. D. Shalabodov 169 Species variability of erythrocyte transport ATPases in mammals

K. Matsubara, H. Sumi, K. Hori and K. Miyazawa 177 Purification and characterization of two fibrinolytic enzymes from a marine green alga, *Codium intricatum*

S. J. Richardson, K. M. Dziegielewska, N. A. Andersen, S. Frost and G. Schreiber 183 The acute phase response of plasma proteins in the polyprotodone marsupial *Monodelphis domestica*

M. Nouiainen, K. Rafn, L. Skou, P. Roepstorff and S. O. Andersen 189 Characterisation of exoskeletal proteins from the American lobster, *Homarus americanus*

G. G. Holz and T. J. Turner 201 Pertussis toxin-sensitive GTP-binding proteins characterized in synaptosomal fractions of embryonic avian cerebral cortex

S. Ando, X.-H. Xue, G. F. Tibbits and N. H. Haunerland 213 Cloning and sequencing of complementary DNA for fatty acid binding protein from Rainbow trout heart

C. Ferreira, B. B. Torres and W. R. Terra 219 Substrate specificities of midgut β-glycosidases from insects of different orders

H. Uchida, Y.-X. Chen, H. Nagai, Y. Fujisaki, K. Harihara, N. Saka, Y. Kugisaki and A. Nomura 227 Distribution of adenosine (phosphate) deaminases with unusual substrate specificty in marine molluscs

A. Kashiwagi, K. Kashiwagi, M. Takase, H. Hanada, M. Yamashita, T. Naitoh and M. Nakamura 235 Inhibitor and temperature effect on catalase in the liver of adult diploid and haploid *Rana rugosa*

Vol. 119B, No. 2

J. Wang, M. Adachi and D. E. Rhoads 241 A calnaktin-like inhibitor of NA,K-ATPase in rat brain: regulations of $\alpha 1$ and $\alpha 2$ isozymes

S. M. Wright and A. M. Salter 247 Effects of soy protein on plasma cholesterol and bile acid excretion in hamsters

A. H. Warner and C. Matheson 255 Release of proteases from larvae of the brine shrimp *Artemia franciscana* and their potential role during the molting process

G. C. Burdge and A. D. Postle 265 Pregnancy-associated adaptations to hepatic phosphatidylcholine biosynthesis in the guinea-pig

A. M. Scivener, H. Watanabe and H. Noda 273 Properties of digestive carbohydrase activities secreted by two cockroaches, *Panesthia cribrata* and *Periplaneta americana*

M. Berri, P. Rouchon, M. Zabari and A. Ouali 283 Purification and characterization of a new potential in vivo inhibitor of cathepsin L from bovine skeletal muscle

I. Ben-Shooshan and A. H. Parola 289 The CP-I subunit of adenosine deaminase complexing protein from calf kidney is identical to human, mouse, and rat dipeptidyl peptidase IV

C. McGee, G. B. Wisdom, I. Fairweather, R. P. Blackshaw, J. McIlroy and B. Walker 293 Characterization of the proteins present in the mucus of the flatworm *Artioposthia triangulata* (Dendy)

W. J. Bettger, C. B. Blackadar, M. L. McCorquodale and R. Ewing 299 The occurrence of iso 24:0 (22-methyltricosanoic acid) fatty acid in sphingomyelin of rat tissues

J. P. Harrington 305 Alteration of redox stability of hemoglobins A and S by biological buffers

M. Vázquez, M. Merlos, T. Adzet and J. C. Laguna 311 Influence of lipid profile and fatty acid composition on the oxidation behavior of rat and guinea pig low density lipoprotein

T. Zeke, P. Gergely and V. Dombrádi 317 The catalytic subunits of Ser/Thr protein phosphatases from *Caenorhabditis elegans*

P. S. Brookes, J. A. Buckingham, A. M. Tenreiro, A. J. Hulbert and M. D. Brand 325 The proton permeability of the inner membrane of liver mitochondria from ectothermic and endothermic vertebrates and from obese rats: Correlations with standard metabolic rate and phospholipid fatty acid composition

I. Kątnik, M. Pupek and T. Stefaniak 335 Cross reactivities among some mammalian haptoglobins studied by a monoclonal antibody

G. A. Stewart, M. van Hage-Hamsten, K. Krska, P. J. Thompson and S. Olsson 341 An enzymatic analysis of the storage mite *Lepidoglyphus* destructor

N. Fresquet, D. Fournier and M. Gauthier 349 A new attempt to assess the effect of learning processes on the cholinergic system: Studies on fruitflies and honeybees

A. K. Felskie, P. M. Anderson and P. A. Wright 355 Expression and activity of carbamoyl phosphate synthetase III and ornithine urea cycle enzymes in various tissues of four fish species

P. M. Heegaard, J. Klausen, J. P. Nielson, N. González-Ramón, M. Piñeiro, F. Lampreave and M. A. Alava 365 The porcine acute phase response to infection with actinobacillus pleuropneumoniae. Haptoglobin, C-reactive protein, major acute phase protein and serum amyloid A protein are sensitive indicators of infection

K. Yamamoto, I. Matsui, T. Nakatani, K. Matsuura and H. Sinohara 375 Cloning and sequencing of cDNA encoding haptoglobin, an acute phase protein in syrian hamster, *Mesacricetus auratus*

N. W. Ohan, Y. Tam and J. J. Heikkila 381 Heat-shock-induced assembly of hsp30 family members into high molecular weight aggregates in *Xenopus laevis* cultured cells

W. V. Brown, R. Morton, M. J. Lacey, J. P. Spardbery and R. J. Mahon 391 Identification of the geographical source of adults of the old world screw-worm fly, *Chrysomya bezziana* villeneuve (Diptera:Calliphoridae), by multivariate analysis of cuticular hydrocarbons

N. Matsuoka, T. Hosoya, T. Hamaya and A. Abe 401 Phylogenetic relationships among four species of stag bettles (Coleoptera: Lucanidae) based on allozymes

S. Prigent, M. Matoub, C. Rouland and M.-L. Cariou 407 Metabolic evolution in α-amylases from *Drosophila virilis* and *D. repleta*, two species with different ecological niches

413 Errata

Vol. 119B, No. 3

Reviews

N. L. Stephens and A. J. Halayko 415 Airway smooth muscle contractile, regulatory and cytoskeletal protein expression in health and disease

T. J. Eddinger 425 Myosin heavy chain isoforms and dynamic contractile properties: skeletal versus smooth muscle

G. C. Sieck, Y.-S. Han, Y. S. Prakash and K. A. Jones 435 Cross-bridge cycling kinetics, actomyosin ATPase activity and myosin heavy chain isoforms in skeletal and smooth respiratory muscles

W. H. Guilford and D. M. Warshaw 451 The molecular mechanics of smooth muscle myosin

J. F. Watchko, M. J. Daood and G. C. Sieck 459 Myosin heavy chain transitions during development: Functional implications for the respiratory musculature

General Papers

V. Lund and J. A. Olafsen 471 Atypical phosphorylcholine-reactive protein from Atlantic salmon, *Salmo salar* L.

H. J. Yuasa, E. Furuta, A. Nakamura and T. Takagi 479 Cloning and sequencing of three C-type lectins from body surface mucus of the land slug, *Incilaria fruhstorferi*

A. M. Guzman-Partida and E. M. Valenzuela-Soto 485 Porcine kidney betaine aldehyde dehydrogenase: purification and properties

N. Hafid, F. Valverde, E. Villalobo, M. S. Elkebbaj, A. Torres, A. Soukri and A. Serrano 493 Glyceraldehyde-3-phosphate dehydrogenase from *Tetrahymena pyriformis*: enzyme purification and characterization of a *gapC* gene with primitive eukaryotic features

L. K. Shubina, S. N. Fedorov, E. V. Levina, P. V. Andriyaschenko, A. I. Kalinovsky, V. A. Stonik and I. S. Smirnov 505 Comparative study on polyhydroxylated steroids from echinoderms

T. Midorikawa, R. Abe, Y. Yamagata, T. Nakajima and E. Ichishima 513 Isolation and characterization of cDNA encoding chicken egg yolk aminopeptidase Ey

J. J. Bedford, J. L. Harper, J. P. Leader, P. H. Yancey and R. A. J. Smith 521 Betaine is the principal counteracting osmolyte in tissues of the elephant fish, *Callorhincus millii* (Elasmobranchii, Holocephali)

P. K. Davis and G. Wu 527 Compartmentation and kinetics of urea cycle enzymes in porcine enterocytes

M. G. L. Medeiros, T. M. P. C. Ferreira, E. L. Leite, L. Toma, C. P. Dietrich and H. B. Nader 539 New pathway of heparan sulphate degradation: Iduronate sulphatase and *N*-sulphoglucosamine 6-sulphatase act on the polymer chain prior to depolymerisation by a *N*-sulpho-glucosaminidase and glycuronidases in the mollusc *Tagelus gibbus*

C. G. Guglielmo, N. H. Haunerland and T. D. Williams 549 Fatty acid binding protein, a major protein in the flight muscle of migrating Western Sandpipers

A. Sanchez-Amat, C. Ruzafa and F. Solano 557 Comparative tyrosine degradation in *Vibrio cholerae* strains. The strain ATCC 14035 as a prokaryotic melanogenic model of homogentisate-releasing cell

D. C. Rule and R. J. McCormick 563 Fatty acid composition and cholesterol concentration in tissues of white-tailed deer (*Odocoileus virginianus*) as influenced by lactation, age, and season of the year

N. Yoshizaki, A. Moriyama and S. Yonezawa 571 Purification and properties of embryonic cysteine proteinase which participates in yolklysis of *Xenopus laevis*

M. Mita, M. Yoshikuni and Y. Nagahama 577 Ecto-ATP diphosphohydrolase (apyrase) in ovarian follicle cells of starfish *Asterina pectinifera*

O. Hisatomi, S. Kayada, Y. Taniguchi, Y. Kobayashi, T. Satoh and F. Tokunága 585 Primary structure and characterization of a bullfrog visual pigment contained in small single cones

M. Yamaguchi, M. Jimbo, R. Sakai, K. Muramoto and H. Kamiya 593 Purification and characterization of *Microcystis aeruginosa* (freshwater cyanobacterium) lectin

S. C. Wache and H. Laufer 599 (n-3) and (n-6) PUFA as biochemical markers for developmental stages of brine shrimp developing toward 'dumpy' or 'slender' adults

V. I. Lushchak, Y. D. Smirnova and K. B. Storey 611 AMP-deaminase from sea scorpion white muscle: properties and redistribution under hypoxia

Instructions to Authors

Vol. 119B, No. 4

C. Hauton, L. E. Hawkins and S. Hutchinson 619 The use of the neutral red retention assay to examine the effects of temperature and salinity on haemocytes of the European flat oyster *Ostrea edulis* (L)

H. Saito, H. Yamada and Y. Kato 625 Isolation and partial characterization of chromoprotein from the larval hemolymph of the Japanese oak silkworm (*Antheraea yamamai*)

J. E. A. de Moreno, V. J. Moreno, L. Ricci, M. Roldán and M. Gerpe	631	Variations in the biochemical composition of the squid *Illex argentinus* from the South Atlantic Ocean
M. Thomson, J. M. Al-Hassan, J. Al-Saleh, S. Fayad and M. Ali	639	Prostanoid synthesis in whole blood cells from fish of the Arabian Gulf
M. Paolucci, G. Guerriero, V. Botte and G. Ciarcia	647	Apolipoproteins and their electrophoretic pattern throughout the reproductive cycle in the green frog *Rana esculenta*
D. R. Nelson, M. Guershon and D. Gerling	655	The surface wax composition of the exuviae and adults of *Aleyrodes singularis*
M. H. L. Arndt and M. M. Santoro	667	Structure of the extracellular hemoglobin of *Biomphalaria glabrata*
A. Bedekar, R. M. Zink, D. H. Sherman, T. V. Line and J. F. Van Pilsum	677	The comparative amino acid sequences, substrate specificities and gene or cDNA nucleotide sequences of some prokaryote and eukaryote amidinotransferases: implications for evolution
P. Hovingh and A. Linker	691	Glycosaminoglycans in two mollusks, *Aplysia californica* and *Helix aspersa*, and in the leech, *Nephelopsis obscura*
M. Langer, T. Giebing and J. D'Haese	697	Purification and functional characterization of an 85-kDa gelsolin from the ascidians *Microcosmus sulcatus* and *Phallusia mammilata*
S. Tunkijjanukij, H. Giæver, C. C. Q. Chin and J. A. Olafsen	705	Sialic acid in hemolymph and affinity purified lectins from two marine bivalves
M. L. Costa, C. S. Mermelstein, M. M. Fróes, C. Chagas and V. Moura Neto	715	Differences in the isodesmin pattern between the electric organs of *Electrophorus electricus* L.
K. Nakano, M. Tagawa, A. Takemura and T. Hirano	721	Temporal changes in liver carbohydrate metabolism associated with seawater transfer in *Oreochromis mossambicus*
G. L. Reed, A. K. Houng and C. Bianchi	729	Comparative biochemical and ultrastructural studies of P-selectin in rabbit platelets
E. S. Kahn, T. Kinumi, S. L. Tobin and H. Matsumoto	739	Phosrestide-1, a peptide derived from the *Drosophila* photoreceptor protein phosrestin I, is a potent substrate for Ca^{2+}/calmodulin-dependent protein kinase II from rat brain
G. Izaguirre, A. Kikonyogo and R. Pietruszko	747	Methylglyoxal as substrate and inhibitor of human aldehyde dehydrogenase: Comparison of kinetic properties among the three isozymes
